

TRITON DIVING SERVICES, LLC MAKES A BIG SPLASH AT DECOMWORLD

Triton Employees attended the 3rd annual DecomWorld Summit in Houston, TX on March 15-16 of this year. This conference featured vendors and operators involved in Decommissioning and Abandonment projects. Over 600 decommissioning industry experts were on hand to share their knowledge and experience. For two days attendees heard presentations from keynote speakers from Apache, Shell, BP, Stone, and many others.

This was a great opportunity to introduce some of Triton's new faces and connect with customer's directly. Triton was well represented with more attendee's than any other diving company.
